

**THE ORIGINATOR OF CORAL CALCIUM**  
**SINCE 1963 – OKINAWA, JAPAN**

# CORAL CALCIUM POWDER

The natural coral grains, harvested from the ocean floor off subtropical Okinawa, contain abundant calcium and magnesium, as well as other essential trace minerals. CCP is a natural coral mineral powder with Ca = 34% and Mg = 1.5% that can be applied to nutritionally fortify various processed foods.

## SPECIFICATION

Calcium	34% or more
Magnesium	1.5% or more
Arsenic	3 ppm or less
Lead	3 ppm or less
Pesticide residue	Undetectable

Micro Organisms	
General Bacteria	3x10 <sup>3</sup> /g or less
Yeast & Mold	1x10 <sup>2</sup> /g or less
Coli bacillus	Negative
Salmonella	Negative

Available particle size :

- CCP-44 44 $\mu$  90% pass (wt.%)
- CCP-08 8 $\mu$  90% pass (wt.%)

## FEATURES

- Naturally contains calcium, magnesium and other essential minerals from a single natural source of coral
- Tasteless, odorless, grey-white or yellowish-brown micro-powder
- A 100% natural product derived from fossilized coral in Okinawa, Japan

## APPLICATIONS

- As a food additive, to nutritionally fortify various processed foods with natural minerals of Calcium, Magnesium and other trace minerals.

## PACKAGING

- 20kg Kraft 3-tiers bag
